

Food Packaging Adhesive Solutions

Complete solutions for the fast-paced food industry. With high demands for food safety, brand integrity and efficiency Intact provides reliability, easy processing and competitive gluing solutions for all types of end of line packaging.

- Powerful hotmelts for bonding & sealing
- High yield, test proven on all packing lines
- Reduced maintenance & costs
- Self-cleaning, low density formulations for increased process efficiency
- Excellent adhesion, fast setting & clean processing
- Non-tainting on delicate food products such as chocolate & tea

Our range of food packing adhesives meet full food approvals and have proven themselves on all packing lines at high speeds.

We have solutions for all types of coated and uncoated boards, folding boxes, wrap-around cases, shelf ready packaging, trays, bag sealing, labelling and pallet stabilisation.

Free testing on your products in our lab - no need to stop your production line.
