

Horticultural Product Packaging

Adhesive Solutions

Complete solutions for the horticultural industries high demand for safe, non-toxic adhesive bonding and sealing.

- High adhesion to difficult surfaces
- Easy to apply-open times to suit line speeds
- Wide temperature resistance
- Low density formulations for increased process efficiency
- No harmful chemicals

Intact bonds to a wide variety of coated & recycled cardboard, paper, plastics and foils.

We have solutions for case & carton sealing, sift-proof sealing, labelling, seed packets, sample attachment, pallet stabilisation of boxes, sacks and plastic containers.

Free testing on your products in our lab - no need to stop your production line.
