

Pallet Stabilisation Adhesive Solutions

Complete solutions for pallet and product securing to reduce plastic waste. Efficiently & cost effectively secure, stabilise and protect products in transit.

- Improves load integrity
- Use on cases, trays, sacks
- Low cost in use
- Reduces plastic waste
- Easy to apply, non-toxic
- No surface damage

Our range of pallet stabilisation adhesives meet full food approvals and have proven themselves on all packing lines at high speeds.

We have solutions for all types of cases, cartons and multipacks, bags and trays. Used in the food packaging industry, cement, construction materials, pet food and as replacement for shrink film wrapping and expensive layer pads.

Free testing on your products in our lab - no need to stop your production line.
