

VISIBLY GREEN: MONTA BIOPACK® 860 LG

SUSTAINABLE PACKAGING NOW INSTANTLY RECOGNIZABLE

Now you can showcase your eco-friendly packaging to your customers, thanks to the sustainably printed monta biopack® 860 LG! monta biopack®, the first certified sustainable self-adhesive tape made in Germany, is now visibly green: The new version monta biopack® 860 LG carries the print "90% natural material" which allows for instant recognition as eco-friendly adhesive tape. Printed with compostable ink, this adhesive tape is also certified by TÜV Austria and carries the OK COMPOST INDUSTRIAL conformity mark, meeting the requirements of EN 13432, ASTM D 6400-04 and ISO 17088 (2012). monta biopack® 860 LG is made of approx. 90% renewable resources and offers minimal material usage, as one single layer of tape ensures as reliable carton closure. Ideal for sealing medium heavy to heavy cardboard boxes, for bio-based bags and films as well as for bundling flowers and garden waste. For eco-friendly packing with a visibly green adhesive tape.
